Working in 3 Dimensions	<p>Pupils become familiar with using film as a source to create observational drawings of birds. Pupils look carefully and slowly as they draw, creating a range of different marks and line using B pencils, handwriting pens and pastels.</p> <p>Pupils create drawings of feathers working from real life. They will recall the mark making that they have used throughout the year and will continue to explore new ways of making marks. Pupils work in sketchbooks or on large pieces of paper to experiment with how paper size changes the nature of mark making. Pupils demonstrate that they can create marks with a range of materials and have made conscious choices about which materials they want to use.</p> <p>Pupils demonstrate that they can intuitively transform paper to create 3d forms by tearing, crumpling, and collaging. Pupils demonstrate this by either making rubbings, turning paper into feathers or manipulating paper 2d into 3d. In each of the activities, pupils will explore and invent to develop their making and creativity skills.</p> <p>Pupils engage with artists work to think about and articulate what it is they think of the artwork in their sketchbooks or in class discussion. They draw upon the skills learnt in week 1, 2 & 3 to make choices about materials and structures to create their own sculptures of birds. Pupils demonstrate an understanding of how to make things balance through exploration and play.</p>	<p>Pupils will think creatively and laterally, and practise dexterity skills by using a range of materials to build roots and shoots from 'seeds'. Pupils will learn to manipulate materials by twisting, tearing, folding and bending materials to form structures. They will take photos of their sculptures to put in their sketchbooks to reflect on.</p> <p>Pupils will transform sticks to make either worry dolls, a tree house or masks out of sticks. In each of these activities they will continue developing dexterity skills such as cutting with simple tools and fastening materials together. They will be introduced to artists or source material which will inspire and inform their idea generation. Pupils will respond to stimulus and will generate ideas in sketchbooks. They will test ideas alongside this to transform a variety of objects showing a consideration for form and colour.</p> <p>Pupils will display their work in a clear space and reflect on the half term, sharing what they like and what they would like to try again through peer discussion.</p> <p>Chris Kenny</p>	<p>Pupils will become familiar with the term 'plinth', and the concept behind it. They will explore a variety of artists who use plinths in their work. They will consider the context and presentation. Pupils will make visual notes in sketchbooks in response to what they see and think.</p> <p>Pupils will be introduced to a sculptor. They will respond through class discussion and visual notes in sketchbooks. Pupils will explore clay as a 'short term' construction material to make clay figurative sketches. Through this they will begin thinking about the distinctions between 'audience' and 'art'.</p> <p>Option1: Pupils will curate, photograph and build their own pocket-sized gallery. They will be both artists and curators, engaging in conversations about "intention", "curation" and reflection.</p> <p>Option 2: Pupils will work in small teams to respond to the Fourth Plinth Challenge. They will use sketchbooks to come up with creative ideas about how they might use a "plinth" in the school.</p> <p>Option 3: Pupils will make dynamic figures which stand on a plinth, built up from one single wire. Pupils will think carefully about their positioning of the figures. They will make notes in their sketchbook about their decision making, including fabric swatches and diagrams.</p> <p>Option 4: Pupils will be given</p>	<p>Pupils will explore artists who draw parallels with other beings (birds) so that we can learn about ourselves. They will engage in peer/class discussion and will collect information and reflect in their sketchbooks by making visual notes.</p> <p>Pupils will create observational and experimental drawings of nests using a variety of media. Through their work they will explore how drawings might be neat or messy as an expression of their personalities. Pupils will test materials in sketchbooks.</p> <p>Pupils will use their own instinct and intuition to make sculptures of a nest. They will question what it is like to be a bird placing the first tentative twigs in place to build their nest. Pupils will explore different materials and construction methods to build inventive nests.</p> <p>Pupils will display their work in a clear space and reflect on the half term, sharing what they like, what they would like to try again, the creative journey, and the skills learnt through peer discussion.</p> <p>Marcus Coates</p>	<p>Pupils will begin to think about the purpose of architecture and the roles and responsibilities that architects have in society. They will be introduced to amazing architectural homes and tiny homes.</p> <p>Pupils will be introduced to the question: "As architects, should we aspire to fill the world full of amazing, beautiful buildings, or do we serve ourselves and the planet better by designing small, modest, cleverly designed eco homes. Or can we do both?"</p> <p>Pupils will use sketchbooks to think about structures and materials found in both amazing houses and tiny homes, and they will begin to pick out bits of the architecture that appeals to them.</p> <p>Pupils will work on large scale to revisit drawings made in previous sessions to collect ideas that they might like to include in their own building structures. They will be introduced to artist 'The Shoreditch Sketcher'.</p> <p>Pupils will consider whether they want their building to be big or small. Using foamboard, children will build a model of their house using the 'Design Through Making approach', taking inspiration from drawings in previous weeks but making decisions largely based on the material and what they find it can do.</p> <p>Pupils will display their work in a clear space and walk around the work as if they are in a gallery, sharing what they like about their own and each other's work.</p>	<p>Pupils will become familiar with the artist Yinka Ilori and record and reflect on his work in sketchbooks.</p> <p>They will explore the visual elements of chairs, including talking about materials, form and structure, through observational drawing in sketchbooks.</p> <p>Pupils will use a wide variety of materials to manipulate and construct 3D 'doodles' in response to making prompts.</p> <p>Pupils will be challenged to become furniture designers and invited to create a chair which expresses their personality.</p> <p>They will record and develop their ideas in sketchbooks.</p> <p>Pupils will display their chairs in a clear space, alongside their sketchbook work, and walk around the room as if in a gallery.</p> <p>Yinka Ilori</p>

	<p>Pupils collaborate to create a flock of birds using their individual sculptures. Pupils engage in class discussion about their individual and collective work.</p>		<p>an imaginary billboard, what will they put on it?</p> <p>Pupils will display their work in a clear space and reflect on the half term, sharing what they like and what they would like to try again through peer discussion.</p> <p>Anthony Gormley, Yinka Shonibare, Thomas J Price</p>		<p>Pupils will work in pairs or teams to document their work using cameras or Ipads.</p> <p>Shoreditch Sketcher, Various Architects</p>
